

THE QUEST FOR EXCELLENCE

At Yamaha, we believe that tradition and innovation go hand in hand.

Our ambition is to take the perfection of this well-established instrument to an even higher level. For over a century, the history of Yamaha pianos has been forged around our eternal search for a piano that surpasses all others. These efforts have culminated in a sound that transmits the emotions of the performer without the slightest compromise; a sound that has won acclaim from top pianists as well as recognition from around the world. Music, as with all art, is brought into existence through the extreme attention to detail. Here at Yamaha, we combine the latest technology with years of accumulated piano experience and know-how, applying our passion and dedication for the art of piano-making to each and every instrument, producing a rich and beautiful instrument.

THE YAMAHA DIFFERENCE

At the heart of Yamaha stands an unwavering commitment to enriching culture with technology and passion born from sound and music. Yamaha is truly proud to provide you with high quality instruments that have been requested by the world's most distinguished artists and selected by the world's most prestigious piano competitions. We are delighted to be able to share the same caliber of musical excellence for your own enjoyment.

Unsurpassed Expertise

- Over 125 years of piano making
- All Yamaha pianos are made by Yamaha in Yamaha owned and operated factories

Unrivalled Technologies

- Leader in technological advances - best digital pianos, Disklavier player systems, Silent, TransAcoustic and AvantGrand pianos

Unparalleled Canadian Support

- Yamaha stands behind all Yamaha products with factory trained technicians and a strong dealer network throughout Canada
- Yamaha is the world's top musical instrument maker and leads the world in quality manufacturing with the industry's best warranty on both digital and acoustic products
- Only piano brand with a dedicated Canadian head office providing service and support

Beauty & Power

"The Evolution of Excellence."

THE CF SERIES

CF SERIES

The CF series represents a pinnacle in the evolution of concert grand pianos. Handcrafted by elite piano artisans, all three models share a beautiful expressiveness and deep tonal presence. The flagship model is the CFX, a full sized 9-foot concert grand piano suitable for the largest of concert halls. Retaining the same outstanding characteristics as the CFX, the 7-foot CF6 and 6 foot CF4 is excellent for recital halls, smaller venues, teaching studios, and homes.

CFX

275cm (9')

CF6

212cm (7')

CF4

191cm (6'3")

SX SERIES

At Yamaha, inspiration is born at the crossroads of tradition and innovation. In our SX Series grands, innovation comes in the form of A.R.E. (Acoustic Resonance Enhancement) treated rims and newly designed hammers. These expand the piano's tonal palette, giving added warmth and depth. Whether in a conservatory or on a small stage, the SX offers a richly expressive sound that will inspire the player and charm the audience.

S7^X

227cm (7'6")

S5^X

200cm (6'7")

S3^X

186cm (6'1")

CX SERIES

The CFX concert grand piano was built on the knowledge, techniques, and experience gained during a long period, with craftsmen pouring everything they knew into the creation of an instrument that took bold new steps in piano design and sonic perfection. The CX Series is a seamless extension of the CFX piano, providing a clear sound with a clean attack, sparkling tone, and transparent harmonies, all encased in an elegant and beautiful form.

G SERIES

With the full resonant tone and range of classic grand pianos, Yamaha baby grands are an excellent choice for smaller rooms and budgets. Combining rich tonal character and design options like the French Provincial and Georgian-style design, these pianos provide the perfect fit for any room.

GC2

173cm (5' 8")

The larger footprint and an affordable price make this GC2 a very popular size instrument. With a superb sound and excellent resonance, the GC2 is a delight to play.

SILENT *Piano*
disklavier

GC1

161cm (5' 3")

With the full resonant tone only a grand piano can possess, the GC1 series provides superior performance at an affordable price.

TransAcoustic

GB1K

151cm (5')

Yamaha's uncompromising insistence on superb sound and resonance, available at a price suitable for smaller budgets. The compact size of the GB1K makes it perfect for any room.

SILENT *Piano*
disklavier

GB1KFP

151cm (5')

This beautiful French Provincial-style design adds refinement to any room, visually enhancing the pleasure to be found in performance.

GB1KG

151cm (5')

The stately authority of this Georgian-style design offers the joy of owning and playing a piano, in a presence that is both simple and dignified.

UPRIGHTS

Yamaha upright pianos are made with the same passion for sound and quality as our grand pianos to ensure you receive the best performance. Yamaha produces each and every component that goes into its pianos and every aspect of production is carried out with cutting-edge technology and unsurpassed craftsmanship under Yamaha's own strict standards for quality control in Yamaha factories.

Each upright series provides you with the best combination of features and benefits to fit your piano needs.

The YUS Series takes upright piano quality and performance to a new level. Built with patience, care and renowned Yamaha craftsmanship, the YUS uprights have superior voicing, inspiring rich sound and delicate balance. The cabinet provides superb acoustics to the subtlest note and specially designed hammers provide rich tone. The meticulous design rounds out a piano that enhances the performance of professional and home pianists alike.

The U Series has always been a respected choice among musical professionals and institutions, and today's U Series pianos are better than ever. With advanced sound production design, specially designed hammers, and Soft-Close fallboard, the U series have earned high praise from professional players and amateur enthusiasts.

The b Series consistently delivers a unique combination of performance and attention to detail at pleasing prices. Yamaha's renowned, pure, clear tone and easy-to-play responsive touch of the keyboard make these uprights ideal for beginner piano students.

D: 54 cm (21 1/4")
174 kg (383 lbs)

SILENT PIANO

Yamaha SILENT Pianos™ are acoustic pianos with sound dampening capabilities that allow them to be played with headphones. Yamaha developed its first upright SILENT Pianos™ in 1993 and have since expanded to grand pianos. Equipped with convenient functions of digital pianos, such as recording, playback and connection terminals including MIDI and AUX, the SILENT Pianos™ combine the authentic sound and touch of acoustic pianos with the convenience of digital pianos.

Practice anytime, day or night, without being disturbed or disturbing anyone around you.

HOW DO SILENT PIANOS™ WORK?

When you shift your piano to silent mode, the hammer shank stoppers move into place to prevent the hammers from striking the strings, silencing the physical sound. Sensors detect your key and pedal action and an acoustic sound is digitally reproduced and instantly sent to your headphones.

SILENT PIANO MODE

Immerse yourself in the natural sound of the piano. When Silent Piano Mode is on and you have your headphones, the Yamaha CFX Piano Binaural Sampling provides such a natural sound that you forget you are wearing headphones. Coupled with VRM (Virtual Resonance Modeling) that faithfully reproduces the distinct resonance of an acoustic piano, this technology allows you to immerse yourself in the natural sound of the piano without being disturbed by others.

DISKLAVIER

Ever since the original Yamaha Disklavier introduced the marvels of hybrid acoustic/digital pianos back in 1986, these computer-age 'player' pianos have evolved into instruments that can reproduce 'live' acoustic piano concerts and ensemble music with instrumental backings and vocal tracks. The Disklavier ENSPIRE takes this all a step further. Yamaha's unique combination of both acoustic and digital superiority has made it the obvious choice of music-lovers, pianists, and educators worldwide. Its easy-to-operate user functions make the Disklavier a breeze to customize and automate, always giving you the right music at the right time.

Combining the tone and touch of world-class Yamaha grand pianos with an astonishing range of interactive capabilities, the ENSPIRE is the ultimate piano for home entertainment systems, business establishments, or educational and creative environments.

disklavier **ENSPiRE™**

The pinnacle of reproducing technologies, the Disklavier ENSPIRE series offers high resolution recording and playback paired with the highest quality acoustic pianos for those who want nothing but the best. It has the technology that allows video to be played in unison with the Disklavier Piano and has seamless compatibility with mobile devices.

All Disklavier pianos come with the Silent Piano feature.

AVANTGRAND SERIES

A real grand piano experience that you can play anywhere, anytime. The AvantGrand series features the same action used in Yamaha's renowned grand pianos, combined with cutting-edge technology that allows you to experience grand piano performance at any volume. Touch, pedal feel, reverberation and resonance, all crucial elements that allow the AvantGrand series to meet the demands of even the most discriminating of pianists.
